

Villain VLN112

DESCRIPTION

The high-backed Villain is a sofa inspired by the classic, dramatic styling of a wing-backed chair: high-sided and with double-breasted buttons. But it's been given a contemporary twist with the addition of knife-edge arms and post-industrial tubular-steel frame. Perfect in a sumptuous reception, gracing a lounge or bar area or if you want to create a meeting room with real impact, the Villain will command the attention of all who meet him. Just take a seat, and you'll find out he's not all about style. Our Villain offers a touch of luxe too - a comfortably deep padded seat to sink into. With a choice of [sumptuous fabrics](#) for not only the seat and back but the internal side panels too, you can create a Villain to suit your office or organisation. Shown here with clear lacquered tubular frame you can also choose chrome plate, platinum epoxy or numerous other coloured finishes. You could even choose one of the three other base types available in the [Villain range](#).
