

Operating instructions

Rialto RL21 Chairs

ALL ADJUSTMENTS SHOULD BE MADE WHILST SEATED

Chair Height Adjustment. The overall height of the chair can be adjusted by lifting the lever located below the front of the seat on the right-hand side. Lift your weight off the chair allowing it to rise and release the lever at the required height. To lower the chairs simply lift this lever and release at the required height.

Back Recline Adjustment. The back angle is adjusted by pushing down the lever located below the seat on the left-hand side. Please be aware that there is a safety feature that requires you to lean gently into the back before it will release. The back can be locked in any of five positions by pushing the lever down or left unlocked to follow your movements. The tension of the recline is adjusted by turning the knob located under the front of the seat.

Seat Angle Adjustment. The angle of the seat can be adjusted by lifting the lever located under the right hand side of the seat, towards the back. Lift the lever to set seat angle and push down to lock.

Inflatable Lumbar Support. The inflatable lumbar support is adjusted using the hand bulb hanging under the left-hand side of the seat. Squeeze the bulb to inflate and press the button on the bulb to deflate.

Back Height Adjustment. The back height can be adjusted by lifting the back up a step at a time until the correct positioning of the lumbar support is achieved. When the back reaches the top of its travel it will drop back to the start position.

Height Adjustable Arms. The arms have a button located on the outside face of the upright support. Press this in, set the arm at the desired height and release the button to lock.

Folding Adjustable Arms. If the chair is fitted with optional folding adjustable arms these have a button located half way down the outside of the post to adjust the height and a second button at the bottom to allow the arm to be rotated backwards, out of the way.

Seat Depth Adjustment. If the chair is fitted with an optional seat slider the seat depth is adjusted by lifting the lever located below the middle of the seat on the left-hand side. Slide the seat forwards and release the lever to lock in desired position.
